PROFILE

I am an experienced software developer. I bring more than three years' experience writing JavaScript full-stack Web-Applications and Mobile-Applications. Spearheaded successful transition from LAMP stack to MERN stack which cut latency by 40% and increased effectiveness of Database administrators by 20%. Duo to my qualification, extensive background, training, I am interested to apply for the vacant position and join your respected team. That will be really kind of you if you do a closer look at the particulars of my education and skills which you find on my CV. I am very confident of Management, Supervision, Monitoring, evaluation, Coordinating, reporting, Analyzing, interpreting, team work, Ability and willingness of working outside normal office hours.
